---

Software Engineer with a degree in Computer Engineering from ULPGC. I have experience as a full stack developer during my professional internship, along with training in Linux system administration and security. Mainly interested in software development, though I also have training and interest in cybersecurity.

Experience

- **Full Stack Developer** (Internship): Grupo ARI (January 2026 - April 2026)
  - Development and integration of new modules, CRUD operations and features for the corporate ERP using **PHP** and **Laravel**.
  - Resolution of incidents reported by various departments.
  - Development of commands to automate data migration between systems.

Education

- **Bachelor's Degree in Computer Engineering**
  Universidad de Las Palmas de Gran Canaria (ULPGC), September 2022 - June 2026

Courses and Certifications

- Red Hat Getting Started with Linux Fundamentals (RH104)
- Red Hat System Administration I (RH124)
- Red Hat System Administration II (RH134)
- Participant in the 1st Canary Islands Computing Olympiad (2022)
- International Astronomical Search Collaboration (NASA/Pan-STARRS, 2021), image analysis for near-Earth and asteroid belt detection.

Technical Skills

- **Programming languages:** PHP, Java, Python, C, JavaScript, TypeScript, Bash
- **Web and Backend development:** Laravel, HTML, CSS, Angular, React, Spring Boot, Node.js y SQL
- **Systems, Networks and Cybersecurity:** Linux, OpenSSL, Virtualización (QEMU, KVM), Apache
- **Cloud y DevOps**: Docker, AWS, GitHub Actions, Git, GitHub
- **AI-Assisted Development:** Claude Code, Opencode, Copilot, LM Studio (Local AI), TDD

Languages

- **Spanish:** Native
- **English:** B2

Personal Skills

Teamwork, autonomy, adaptability, problem solving and continuous learning.

Additional Information

- Driving license: B
- Own vehicle
- Open to travel
